#### How To Order:

An ORDER FORM is in the back of the Catalog. Use our disk numbers.

Disks with an \* next to the "Disk No" are available thru the mail only, NOT AT SHOWS or USER FESTS.

**Using The Diskettes:** 

While some of the disks in the library AutoBoot, and/or have icons for use from WorkBench, most of the disks MUST BE ACCESSED FROM THE CLI.

# **Business Applications**

#### Order Sheet (Catalog No. 5)

Disks are \$4.00 Each. There is an additional \$3.00 charge to cover Shipping & Handling.

Substantial discounts are available to institutions and for volume purchases. Why not call us and find out the details?

Orders are shipped First Class, USPS, unless otherwise specified. Please allow 4-6 weeks for delivery. (Usually 10 days)

Our Disks are guaranteed. In the event that a disk is faulty when it arrives, return it via First Class mail with a note detailing the problem(s). We will replace it at our cost!

Any inquiry regarding Public Domain Software should be made to our office IN Writing

#### Circle the Disk numbers desired:

Comp-U-Save started in 1982 as a user group cooperative. It's sole purpose was to use the buying power of many and provide value and service to the group membership. Today while we have trancended our beginnings, we are still here to proivide service and value. We have a varied selection of hardware, software, peripherals and supplies.

In keeping with our underlying philosophy, we have formed the Public Domain Software branch of our Company Software does not have to be expensive to be good! There are literally thousands of programs that have been written and donated for use by the general public. These packages cost from a few dollars donated by users to the programmer to mere pennies for just the cost of a disk. This is where we come in. We have assembled a large body of programs for many of todays popular micros. These "Libraries" have been assembled by dozens of user groups and individuals accross the country. All you have to do to enjoy this treasure trove of goodies is carefully read our catalog and circle the disk numbers. Now that's EASY!

We are NOT selling the software. What you pay is for our service. While we cannot guarantee any piece of software, we will replace any non-functioning disk.

Any budding programmer out there wishing to share his effort with the rest of the "ole hackers" give us a call.

To the best of our knowledge, all the programs in this collection are in the Public Domain/Shareware. If this is not entirely correct, PLEASE let us know.
